

THE VALUE OF A RED HAT SUBSCRIPTION

PRODUCT ACCESS

Receive access to both source and binary code and the accompanying documentation.

CERTIFICATIONS

Deploy with confidence knowing we've done the work of making sure your applications and hardware are fully certified by leading Red Hat OEM and ISV partners.

UPDATES

Receive regular updates that provide general enhancements, new features, and additional hardware support.

REVISIONS

Get access to the latest bug fixes and security errata.

UPGRADES

Upgrade to new versions of Red Hat® Enterprise Linux® released during the subscription lifetime.

FLEXIBILITY

Deploy any version of Red Hat Enterprise Linux and move your subscription as needed. Subscriptions are not version-specific. And, with the exception of mainframe systems, subscriptions are not architecture-specific.

RED HAT NETWORK

Access our automated software delivery and update capabilities. Additional Red Hat Network modules provide enhanced systems management capabilities for enterprise deployments.

SUPPORT

Take advantage of multiple support services that provide unlimited incidents and coverage up to 24x7 with 1-hour response.

LONG-TERM STABILITY

Gain peace of mind knowing your applications will have a stable platform. User-mode and primary kernel-mode application interfaces for each Enterprise Linux release are guaranteed to be stable for the life of the product.

LEGAL ASSURANCE

Protect your organization. The Red Hat Open Source Assurance program safeguards customers developing and deploying open source solutions from legal harm.
